Members of the committee also discussed the current Plans of Study that are on the MLS website. There has been some confusion among students and faculty, based on some plans not being up-to-date. It was proposed that the plans be eliminated and that students be referred to the current graduate catalog regarding requirements for each concentration. This suggestion will be reviewed by the full faculty at a future meeting.

The committee discussed the upcoming Curriculum Workshop on May 14 and developed an agenda. Three participants outside the faculty will be invited: Jim McConnoll (current student, academic concentration; May 2020 graduate); Katherine Blankenship (current student, school concentration); and Sedley Abercrombie (alumnae; public library concentration).

The first half of the workshop from 10 to 12 will involve input from the invited participants. The committee discussed the need to review courses in the curriculum. It was suggested that courses be reviewed in clusters with a review of syllabi and assignments. The first three courses in the curriculum (LIBS 6010, 6014, and 6016) will be the first to be reviewed during the workshop.

The meeting was adjourned at approximately 3:00 PM.

Respectfully submitted,
(Dr.) Barbara Marson, Chair
